

Following our [Peer Leader training programme](#), you will have access to our Me Learning University accredited courses that provide engaging, informative and clearly explained e-learning materials in a flexible format for our Peer Leaders.

On completion of the primary LEAP accredited programme, you will access over 50 online courses for your continuing professional development.

Courses that will ensure you are up-to-speed with current developments for your chosen career path, and subsequently, valuable to the organisations you seek employment with.

All courses have audio and closed captions/on-screen text – learners are given complete control and can choose to turn these options on or off as they wish.

We know how difficult it can be to find time to complete training in a single sitting, so the courses are designed to accommodate for this. Your progress through an e-learning course is tracked at each stage, so you can dip out of the session whenever you need to – when you return, you'll be able to pick up where you left off, or start from the beginning.

- > **No software required**
- > **All you need is access to a PC or laptop and the Internet**
- > **Access courses any time, any day**
- > **Guaranteed up-time of 99.9%**

A typical course structure has the following elements

Introduction -A virtual trainer explains how the course is broken down

Overview -A series of slides outlining key aspects of the subject matter

Learning Games -Questions, based on the material discussed in the overview

Scenarios -These help learners place what they have learned into practice

Documents -Additional guidance that can be downloaded

Quiz -A final quiz based on the course material
